Assessment process

Once the applications are received, they will be checked for eligibility and all eligible applications will be referred to an Evaluation panel for assessment. This panel will consist of representatives of the State peak members of ANHCA and a representative of the Sidney Myer Fund.

Once the grant round closes, there will be approximately 1 week for internal assessments and then 5 weeks for the panel to assess the applications and finalise allocations. This timeline will be dependent on the number of applications received.

Applicants will receive notification of the result of the outcome of the grant round once the panel have concluded with their assessments.

If successful, applicants will then receive a funding agreement which will need to be signed and returned in order to receive payment. Unsuccessful applicants will be notified as soon as possible following the assessment process.

Reporting requirements

A final acquittal report will be required at the conclusion of the project outlining outcomes achieved and a statement of expenditure outlining how the grant money was allocated.
